But if you are not lucky to have the one on the list, you can give it a try even without the software. You can still use the "reset" option which you should have by default to fix the problems. You can try to find information about the current compatibility list and website about it in this link The Smart Bar is a useful feature in Windows 10. This feature is designed by Microsoft to do such things as answer frequently asked questions, improve the search experience, store recent pages and search results, and give quick access to a browser or help options. This is a type of place on a web page, which when you click on it, are appearing on a bar on the top of your desktop or on the right of your desktop. You may not see a Smart Bar when you first login to Windows 10. You need to have this feature enabled for a Smart Bar to appear. To turn on Smart Bars, open Cortana by simply saying "OK, Cortana." Then, you can search for "Smart Bar." Press the button to enable the Smart Bar.
