# Virtual-dj-mapper-for- pioneer-ddj-sx

[Download](#)

---

I'm new to VDJ not to be a DJ so I'm in the process of switching to software. I also bought a DDJ-SZ2 as an upgrade from my DDJ-SX. Thanks VJ. I am very new to VDJ and my first task is to start from scratch. I would like to know: 1. What is the "playback function"? 2. What program should I use to create the mixes? 3. What are the differences in the programs? 4. What does "Mix Finder" mean? 5. How can I make my mixes more accessible to people? Thank you very much.
