Q: "Deutsche zu mir" vs "zum deutschen" I'm currently in Germany and want to say "Deutsche zu mir" to mean "Deutsche zu meiner Nähe" or "Deutsche zu mir". Is there a specific difference between "zu" and "zum", and which version is more likely to be used when? A: A good example where "zu" is appropriate is the expression "neu angefangen haben". Ein kleines Bildchen aus dem Ausschnitt deiner

Was wäre dein bevorzugtes Geschäft - zu einem ganz normalen Ort oder bei einer Kundschaft, deren Chef dir nicht zu gut begegnet? (This is the rule for the abbreviation "KD" - Kreditkarte - where you use "zu" instead of "zum". There you would say "zum ganz normalen Ort", where "zu" is appropriate because the bank card is "unbekannt" - unknown - not "normal".) Q: WPF ScrollViewer with IDictionary Not Updating I have a WPF desktop application that I am rendering some data in a ScrollViewer which I then export to PDF. Some of the data I am loading from a database which I populate in a Dictionary. The only way I can export the PDF and still have it updated as the data from the database changes is to wrap the dictionary up in an object that implements IDictionary. Since the dictionary is only 1 item in size I

don't need to worry about the XmlDataProvider. public class DataDictionary : IDictionary { public void Add(int key, Object value) { throw new NotImplementedException(); } public int Add(object
