One morning, the barely 23-year-old Lone McLonegan wakes up to a strange new world. After escaping a trap set by the outlaws Kinky and Big Chuck, he finds himself forced to team up with the only person he trusts, his old pal Governor Gilt City. Together, the duo will venture into a rugged wilderness full of danger and fantasy, live every outlaw's dream and, in the end, probably get the girl. The Story : Lone McLonegan wakes up to find himself in a world that is probably the most dangerous city of outlaws. Taking advantage of his noble heritage, he tries to meet his promise to become a sheriff, hoping it will help him save the city. Lone McLonegan is a hardcore biker, adventurous and a big heart-throb, but his job. Together, the two of them will have to help a group of innocent people who are about to be taken prisoner and forced to work as a labor camp. Things will be very different, though, as the city of outlaws is an intriguing fantasy realm where banishments, mythological villains, treasure and a range of colorful characters all combine to create a mythological universe in which we live. Music and rhythm games have been around for a very long time. But, there's something special about String Theory, a game that trains the player to play the piano like a true musician. String Theory is a free music-based game for the iPhone/iPod Touch that introduces the basic theory behind music. You can enjoy the game without understanding music or music theory. However, if you're a musician who wants to keep her skills sharp or have a casual interest in music, you can learn about music theory, get familiar with the sound of your instrument, and enjoy the game in a new way. Even if you are a complete beginner, String Theory offers over 20 challenging instruments to try out. All these challenges will train your ear and expand your musical abilities. Let's play String Theory, an app recommended by Apple that is still under development. We realize that it's early, and it's possible that it may contain content not appropriate for younger audiences. Therefore, please exercise caution when playing. <u>What's new:</u>

of a Continent Begins with radiocarbon dating and ancient Egyptian writing on papyrus By Phyllis Diller The great pyramids will inspire awe, dread and delight the first time you see them. They dominate the landscape as if designed by none other than an artist. In fact, they were, and Egyptologists contend they were built by a civilization that has long since vanished. Phyllis Diller, a New York Times bestselling author, has written another delightful mystery entitled 'Reincarnation Murders of Ancient Egypt: A True Story' (2007) a book about reincarnation in Egypt -- that is, how far back it goes to when people needed to die for him/herself to be reborn. I'm not such a whiz at math, but the first pyramid shows up at El-Tantouit, and it's estimated it was built 4,300 years ago! I can't wait to see my relatives in my new life! "One of the stupendous and astonishing facts is that the first pyramid could not have been built 4,300 years ago," she continues. "It is believed that the pyramids were built at the same time as the three great pyramids of Egypt in Giza. "According to Revelation 12:7, Revelation 12:8 mentions a great woman being born who would crush her 'rivers'." "Back on Earth, 4,300 years ago, someone may have believed that someone else was going to be born into their family and be called Mary for example. The Egyptians would tie strings or threads onto the baby's wrist or ankle, symbolic of life. Then they would bury them in the most opulent cemeteries. Some even put perfume in the child's grave to ensure they were born into happiness." "The Egyptians could bring the dead back to life. Early pictograms look like a pile of clothing as nearly 21,000 years ago. People are using family vats as a chair, and the pictures tell who they were looking at. They needed an alien that someone could blame. 'How dare you steal from us!' So the alien got clobbered." "Then they were screwed. Not only could they not bring back the person they snuck onto their planet, but they couldn't kill them because 'You ate our ancestor!' That was a double dose of misfortune. They couldn't kill him because they were the ones
