What's New In?

Microsoft Visual C# 2010 Express, ASP.NET MVC, Silverlight, WCF, SQL Server 2008 R2, Microsoft.Net.Framework v3.5, SQL Server Databases, VisualStudio 2010.0.11227.32, Build3176.2, 00:00:00, Release/NOT: Fast Editions. Description: I have updated version of a utility for creating database script from ER. This version has some new features like support for SQL Server 2008, Oracle 11g and MySQL 5.0. In previous versions you had to create a small example database before you started using it. Now with this version it is much easier to use because of it's wider compatibility and all additional databases are already created and connected in the tree view of the model. Description: I have updated version of a utility for creating database script from ER. This version has some new features like support for SQL Server 2008, Oracle 11g and MySQL 5.0. In previous versions you had to create a small example database before you started using it. Now with this version it is much easier to use because of it's wider compatibility and all additional databases are already created and connected in the tree view of the model. Description: This is a version 1.0 beta which includes a sample database to get started. The application has been tested with Microsoft.Net.Framework 4.0. This release contains a few new features including the ability to connect to and create databases on SQL Server 2008 and MySQL 5.0. Some bugs have been fixed, especially around compiling and running the application. Description: This is a version 1.0 beta which includes a sample database to get started.
