What's new in Elden Ring:

**—Information— Developer: Chunsoft Publisher: Chunsoft
Platform: Android-only (Free) Android Game Release date:
August 24, 2018 Language: Japanese**

Farhaven: New Dawn is a fantasy RPG from a unique studio, Two Knights

Set in a world of mountain and sea located in a unified continent known as “Heaven’s Refuge”, a once peaceful land has been shattered by mankind as a result of Eve first appearing. The land itself has been divided between warring nations. The descendants of man who lost everything have retreated to the far-away mountains, while those who fought a desperate battle have seized an island that lies between the sea and land. From the floating island, the banner of Eve, the Goddess of Light, was raised, and thus a new era was born.

Together with the Four Grand Orders of the Warring Kingdom, a citizen who possesses talents from different backgrounds is selected to become the representative of the country, no matter where he/she happened to be. This is because such a person has the power to unify the country under one banner.

In the Warring Kingdom, the powers are divided into a total of five Grand Orders. They are the Warriors, Magicians, Nobles, Priests and Knights. Picking one to rule is a prestige and a great honor. Holding a seat in the National Parliament would also be an unforgettable honor. However, with their abilities, it is more than likely that they would not be the one who leads the country. As such, the very process of selecting a representative of the people will be a struggle between the five. Each of them has his own valuable skills, which can only be tapped when the opportunity arises. All matters, including politics and diplomacy, are decided through negotiations between the representatives. All of them are actually in conflict with each other and, rather than opposing one another, are somehow dealing with one

another.

Among the Five Grand Orders, the Warriors and the Knights are known as the war-driven, fight-to-the-death Orders. Their representatives, those who wield swords on the battlefield, seek victory in the pursuit of their passions. If the country joins the Warriors, the social hierarchy will be destroyed and peace will be broken, since
