BIM Awards Bosses Magazines.pdf Fiber-optic sensing for nondestructive testing of physical properties of pharmaceutical powders. A fiber-optic sensing technique for monitoring the amount of moisture and the flowability of a powder is described. The method is based on coupling light from a source operating at a single wavelength into the fiber core of an optical fiber probe; the transmitted light intensity is a linear function of the length of the probe. When the sensor is connected to a turbidity meter, quantitative measurement of the mass concentration of a particle in the powder is possible, and the sensor can be used as a flowability monitor.Marvin Martiramol Marvin Martiramol (; born 30 July 1995) is a Greek professional footballer who plays as a midfielder for Kolibiki. Career He made his professional debut on 1 December 2014 for Ergotelis. The law restricting the production, sale and use of meth, which has been in effect since July, has forced the government to shut down the country's methamphetamine laboratories. In response, tourists are flocking to have their tattoos and teeth whitened or even have the entire body covered with the white powder. It's not just for tourists
