planet zoo deluxe or the standard edition includes more than 30 buyable items like physics objects, vines, seeds, materials, natural scenery, and creature models as well as more than 15 dialogues and quest items. it also includes an online multiplayer option in the new game plus mode, a leaderboard, save states, and a custom soundtrack. you can build a virtual world, just like the developers of planet zoo. in doing so, you'll have the ability to play with all the animals found on planet zoo at different times of the day. it is a bit of a different world than the one that we are familiar with. it makes you want to get that unique pet for them. when you play the game, you will be able to compare yourself to the other wild animals and see where you stand in society. animals range from your everyday fare to the exotic and unreal. all animals act naturally, so you don't need to create a personality for them. once again, they have their own habits and pheromone to attract each other. if you go outside and look at the animals, you'll start to see the parts of planet zoo and how they interact with each other. planet zoo uses the same visuals as its predecessor planet coaster, and there are several familiar objects, such as the lift to get your animals up to the upstairs and the stairs to the lift down. you'll find quite a few animals you can't visit outside the game in real life like giant pandas, meerkats and even turtles. however, you can still visit the aquarium to see the real animals.
