What's New in the Sun Screensaver?

Set your Desktop Screen in the sun with the Sun in its brightest form. The perfect wallpaper for your Windows 2000/XP/Vista/7/8 Desktop. Guaranteed to make you happy and healthy. Stunning sun screen mania pictures, professionally created for AQUA-Alcatel. A refreshing gift to friends, family and co-workers. Choose from 320, 480, 640, 800 or 1024x768 sizes. Simply select the right one for you. I think that I should uninstall the tempate for Firefox. When i close it the screen is black with the "sun.jpg", but the my antivirus system doesn't show any popup alert. I thought it was a Trojan because it looked like the "Tutorials" on the adware. What can I do? By the way i'm using Internet Explorer 6. My PC OS is Windows XP, my system is dual CPU AMD Athlon 64 x2 and 512 mb RAM. We'll also have all of the premium and brand new freebie screensavers that we give away for free like "Skyline, Monkeys, Sharks", and many others. The idea is that when the screensaver starts, the curtains open, the sun shines through the clouds, and you get a bright, new look to your desktop. The screensaver will also display amazing motion graphics effects and will automatically change your desktop background when the sun comes up. By the way we'll be releasing a few brand new, original screensavers to be given away, with new, funny and interesting images and animations. You can expect to see them shortly. Some of the screensavers in the new collection are: Aquamarine - A new screensaver that has been submitted to us and it will be added to this collection. If you want to test out these new screensavers, then you'll have to upgrade to the BETA version of XScreenSaver. But the BETA will be available for only a couple of days so you'll want to get it while it's still available. And don't forget that you can always download the final version of XScreenSaver from our homepage after the BETA is over. You'll also notice that when you install the new screensavers, that there's a second tab in the Settings window. The second tab, titled "Installed Screensavers", shows you which screensavers you have installed on your system. It will also show you which ones you don't have, or which ones are installed but are not enabled. In this tab you will see which version each screensaver is, if it is installed or not. You'll also see if it's installed as the active screen saver. When you click on the tab, you'll see a listing of your screensavers that are enabled or not. You'll see a preview of the screensaver's main
